“ Your wonderful hugs will be dearly missed along with your great sense of humor. We will all miss the time we spent with Charlie and cherish our memories of him. Especially the stories about his grandchildren. If you have ever wondered why there was a spot of dirt on Charlies truck (I can see the smile on his face) when he would say If mother nature put it on then mother nature can take it off. How he loved to make people laugh! We will miss you Charlie rest in peace until we all get to be together again.

“ I like to believe that when we lose someone close they live through us and give us strength. The time weve spent with those weve lost makes them part of us. Charlie was a special person and will be missed by all of his friends at Mercer. My heartfelt sympathies go out to the family and even though Ive never met any of you I feel like I know you through the stories Charlie shared with me over the years. It was obvious how much he loved you and he was so proud of his grandchildren. I feel blessed to have called Charlie a friend and will think of him often. My prayers are with all of you in the coming days and months.

“ Behind those grumbly opions was a caring and thoughtful man. He brought many a smile to so many. We are proud to have called Charlie our friend and colleague. Our deepest sympathies and Love to you all. I will post the image of The Peace Symbol here in his memory because he always picked on me (Jane) about still wearing my Peace Symbol ring that I aquired back in 73. Then we would converse and laugh about The Hippy Years.

“ Words cannot express how Im feeling right now. We do not get to see each other often after weve all grown up but Charlie was like a dad to me and you all were like my brothers and sisters. It was always comforting to know that he was just out there over the road somewhere. Now well all have to feel him as he continues to be out there over the road somewhere. God Bless each of you and him as begins his next chapter. I know he and Chris will be looking over us all! Much Love!
