“ My deepest sympathies are extended to Darwins family. Even though I never had the opportunity to be a student in his biology class he was one of the best teachers I ever knew. Being a science teacher myself I can only wish to model the excellence in teaching he exhibited during his career. He will truly be missed.

“ Deepest sympathies to Mr Kinneys family and friends. He was a wonderful teacher who I will always remember fondly. There are just a handful of teachers who instill a love of learning in their students. Mr Kinney was one of those teachers for me. Thank you Mr Kinney for a job well done.
